

### PDC Dustless Sanding System

The Sander 1600 is now teamed up with CAV-15 tank vacuum to create the most productive, quietest and most aggressive portable dust containment system available in the professional floor sanding industry. The PDC system is flexible enough to add an edger, doubling your crew's productivity.

### EZ-8 Drum Sander and Super 7R Edger

The EZ-8 drum sander combines professional contractor-type floor sanding results with highly productive, easy-to-use equipment features for the do-it-yourselfer. The Super 7R is a powerful, versatile, and easy to use wood floor edging machine that has earned a reputation as a reliable performer.

### OBS-18 DC Orbital Sander

The random-orbital sanding action of the OBS-18 DC removes the scratch patterns left by drum or rotary sanders, leaving a smooth, flat floor ready for refinishing. The OBS-18 is perfect for interim "screen and recoat" sanding jobs.

### LV-30 Litter Vac® and SPS 28 Sweeper

The LV-30 Litter Vac® cleans up litter from large warehouses, parking lots, stadiums and playgrounds. The aerodynamic housing provides exceptional lift to pick up bottles and cans just as easily as paper plates, cups and leaves. The SPS-28 28" powered walkbehind sweeper is offered in gas (SPS-28G) or battery (SPS-28B) versions.

### 91WS Walk-Behind Sweeper

The 91 WS walk-behind sweeper is designed for rugged industrial applications, construction site cleanup and debris pickup in narrow aisles and confined spaces. With its 36" sweep path, it sweeps eight times faster than a push broom, eliminating airborne dust in the process.

### 114RS Rider Sweeper

The 114RS Rider Sweeper is as maneuverable as walk behind sweepers and is designed to clean congested areas in warehouse aisles, manufacturing plants, shopping malls and airports. Its 45" sweep path and quiet battery operation make it a perfect cost-effective solution to your large area sweeping needs.

### Image 14 and Image Mini Spot

The Image 14 compact extractor with its 14" cleaning path is designed to provide high productivity carpet cleaning in confined areas. The BextSpot is perfect for the immediate removal of accidental spills and spots without the need for a large extractor.

### BEXT Portable Extractors and DirectAir Dryer

The BEXT line of extractors provides lightweight and portable carpet extraction with the added benefit of heated solution to improve cleaning effectiveness by as much as 40%! The DirectAir's powerful 3- speed motor and multi-directional design make it the perfect solution for your carpet drying, ventilation and air circulation needs.

### Image 16/20 Self-Contained Carpet Extractors

The Image 16 & 20 self-contained extractors incorporate Wash & Rinse and Ergo-Ex technologies to dramatically boost the standard of productivity, cleaning performance, and ergonomic safety in carpet extraction.

### Image 26E/26B Self-Contained Carpet Extractors

Incorporating the Wash & Rinse and Ergo-Ex technologies, the Image 26E/26B self-contained carpet extractors cut big jobs down to size with 30-gallon solution and recovery tanks, a wide 26-inch cleaning path, and a superior recovery system for fast drying. These self-propelled machines also feature no-tool brush and spray jet changes.

**GENUINE PARTS**

### HAVING THE PART ON HAND

We understand that the best service technician, with the most innovative tools, can only provide the most prompt service, if the right part is on hand. We don't boast about *how much* we have on hand, but *what* we have on hand. Clarke stocks over 20,000 different "go" parts. Clarke's inventory of parts is monitored by our advanced information technology systems. We know what parts to have on hand; we have been supporting after-the-sale service of commercial cleaning equipment since 1916.

### Encore 17 Compact Automatic Scrubber

The Encore 17 is the only compact scrubber with an On-Board battery charger, a Transaxle Drive System (L17) and a scrub head that flips up to a 60 degree brush change position. With your choice of power sources and disc or cylindrical scrub decks, the Encore 17 is the most versatile compact floor scrubber on the market.

### Encore Mini-Max Compact Rider Scrubber

The Encore Mini-Max compact rider scrubber combines the productivity of three machines into one and is available with 26" disc, 28" cylindrical, or 30" disc scrub decks. The compact Mini-Max is truly the walk-behind you can ride!

### FM Floor Maintainer and MP-18 Marble Polisher

Quality and durability have allowed the FM Floor Maintainer to be called the "Best in the Industry." The motor and gearbox are hand built and backed by an exclusive seven year warranty. When used with the Clarke Diamond Discs and Stone Care Polishing Creme, the MP-1800 is the perfect solution for restoring and maintaining marble, limestone and travertine floors.

### FiltraPac & NapSac Vacuums

Count on Clarke for true all-stars in your team-cleaning lineup! The FiltraPac backpack vacuum offers the best filtration value in its class. It is equipped with a powerful 1 HP, 2 stage motor and four layers of filtration for improved indoor air quality. The Nap-Sac portable vacuum is offered in 2 convenient packages; with 1 1/4" or 1 1/2" tool kits.

### Encore 20 Compact Automatic Scrubber

The Encore 20 compact walk-behind scrubber is rugged and dependable, even in the harshest of conditions, yet is compact enough to scrub even in the tightest areas. After many years of use the Encore 20 still provides the greatest value in the industry.

### Encore Max Rider Scrubber

Clarke built the Encore Max to withstand the "wear and tear" demands of an industrial plant, warehouse, superstore or institutional facility. Two high-torque brush drive motors make the Encore Max big on performance with extra cleaning power. You can clean many different floor surfaces, both coated and non-coated, in one single pass.

### CTV Wet/Dry Tank Vacuums

The CTV tank vacuums merge value price together with the filtration, performance and durability of high end vacuums costing hundreds more. The complete hard and soft floor tools, onboard tool caddy and hose/cable wrap make the CTV the best value in the industry.

### S12/S16 and 560B Upright Vacuums

The Clarke S 12 and S 16 vacuums raise the standard for value in a single motor vacuum cleaner. They are available in 12" or 16" sizes and in cloth bag, collector cup or paper filter models. The 560B's all metal construction makes it the most durable single motor vacuum available!

### Encore Mid-Size Automatic Scrubber

The Encore 2426 features 20 gallon solution and recovery tanks for extended scrubbing, unmatched versatility with disc or cylindrical scrub decks and the patented Accu-Track squeegee for improved performance and reliability.

### Electric, Battery and Propane Burnishers

Clarke UltraSpeed® electric and Fusion® battery burnishers provide quiet operation while producing a brilliant high-gloss shine. They feature an integrated dust control system for improved indoor air quality and an ergonomic handle that assures comfortable operation. Clarke Propane Burnishers, featuring the finest in emissions and dust control technologies, are designed and built with operator safety in mind.

### STV and Summit Tank Vacuums

STV Tank Vacuums feature easy-to-clean 10, 15 or 20 gallon stainless tanks. The Summit Specialty Tank Vacuums are premium wet/dry tank vacs designed for durability, dependability and outstanding performance. For fast liquid pickup (SQ 16) or the quick cleanup of flooded areas (Summit Pumper), the Clarke Summits are designed to last.

### CombiVac and FiltraVac Upright Vacuums

CombiVac and FiltraVac Dual Motor Uprights combine value with true dual motor performance. These vacuums are designed to minimize labor costs by providing comfort and convenience during operation and use a unique four-step filtration system for improved indoor air quality.

### Encore Large Automatic Scrubber

The Clarke Encore blends the latest technology with design simplicity to ultimately meet your floor maintenance needs. The Encore features gimbal mounted scrub brushes that follow the contours of the floor, and their 30 gallon solution and recovery tanks and large battery packs mean fewer refills for maximized productivity. The large Encore walkbehind scrubbers are available in 28", 33" and 38" sizes.

### C2K Polishers

The C2K Polishers are value engineered to offer more polishing power for the least cost. Clarke's unique handle design provides ergonomics, comfort and safety for the operator. The C2K's are available in 13", 16", 18", and 20" sizes.

### WAP Tank Vacuums

Available in multiple sizes and configurations, WAP wet/dry tank vacuums are designed and built to handle the toughest and most demanding applications. From drywall or concrete dust to continuous water clean up, WAP vacuums give you quiet performance with no filter change or conversion hassles.

### Carpetmaster® and Spacevac® Vacuums

For tough commercial cleaning jobs, the large 577 and 579 vacuums are efficient, rugged and dependable. Available in 16" and 20" sizes, they feature a full-floating handle for increased operator comfort. Clarke's 590 and 590B Spacevac's combine a 27-inch cleaning path with a four-bushel capacity bag to clean up to 20,000 feet per hour.
