**Clarke**<sup>®</sup>

# Achieve a healthier learning environment. Clarke can show you how.

## Doing more with less.

Cleaning professionals in education settings are constantly challenged with creating a safer, healthier environment for students and staff in order to improve the learning process. With constant budget pressures, they must also, reduce the cost of cleaning. As one of the world's leading brands of commercial floor care and cleaning equipment, Clarke can help you to elevate the overall healthiness of your facilities and minimize environmental impact while reducing the amount of labor and resources required.

Clarke cleaning solutions are designed to help improve overall productivity and achieve higher levels of cleaning performance while enhancing the health and safety of your staff, students and other building occupants.

The versatile **Clarke Clean Track®** self-contained portable extractor features single spray jet technology ensuring consistent coverage without overlaps, streaking or clogging. The Clean Track offers both an interim cleaning mode and deep extraction and can be converted into an automatic scrubber for hard floor scrubbing.

« On the cover: The new compact and maneuverable **Focus® II MicroRider™** lets you scrub more square footage with less operator fatigue. Available in 26 inch disc scrub deck or **28 inch BOOST® deck models** for dual-function scrubbing and chemical-free floor finish removal.

Featuring powerful **BOOST®** technology, the **BOS-18** is the high-productivity orbital floor machine for small areas and detail work.

## More environmentally sound and safe solutions.

By using Clarke cleaning equipment, you can minimize student exposure to nauseous chemicals, improve air quality and reduce the risk of slip and fall incidents, so your facility is cleaner and safer for students, staff and visitors.

Innovative technology that significantly reduces water usage and reduces or eliminates the need for cleaning chemicals provides education customers with industry leading environmental solutions. Floors are more efficiently scrubbed and dried with only the necessary water and detergent, reducing the negative environmental impact of conventional chemical scrubbing and floor finish removal.

## Rugged, single-source solutions from a more complete supplier.

Being able to procure all your cleaning equipment from a single source increases your efficiency and labor utilization. With Clarke, you can choose from a full line of automatic scrubbers, floor machines, burnishers, vacuums and carpet extractors. These durable machines are built to handle the frequent use and daily abuse experienced in education environments. Clarke also supports you with the industry's largest dealer network, consisting of more than 1,300 locations across the U.S. When you do need parts or service, a Clarke dealer is always close by.

A COMPREHENSIVE LINE OF FLOOR CLEANING SOLUTIONS FOR EDUCATION

VACUUMS

CARPET EXTRACTORS

The innovative, new **Clarke Vantage 14** battery-powered scrubber sets new standards for maneuverability, cleans in all directions and keeps water contained under the deck to effortlessly deliver a scrubbed dry surface.

**BOOST®: remove floor finish with water only.**

Our exclusive BOOST® random orbital scrubbing technology can remove floor finish in a single pass using just water, eliminating the need for traditional floor finish removal with chemicals. The benefits of using BOOST are significant:

- Up to 90% labor savings versus conventional floor finish removal
- 50-70% water and chemical savings
- 40% reduction in floor pad consumption
- High performance multi-purpose machines: daily cleaning, floor finish removal, wet screen gym floors

**How Clarke contributes to healthy education:**

- Cleaner facilities due to superior cleaning technologies
- More frequent cleaning due to better utilization of labor
- Reduced environmental impact
- Reduced usage of water and chemicals
- Reduced risk of slip and fall accidents
- Improved indoor air quality
- More LEED-EBOM eligible equipment

The **Focus® II BOOST®** compact 20 inch automatic scrubber offers up to a 70% reduction in water, chemicals and labor, with the ability to remove floor finish using only water.
