

BOOST® Screening For Wood Floors

- 50 - 70% less water use
- 50 - 70% less chemical use
- 25% longer battery life
- Remove floor finish using only water
- 40% increase in pad life

If you demand high levels of cleaning on wood floors with the ultimate in green benefits, BOOST® Technology is what you've been looking for.

One of the most important benefits of BOOST is the chemically-free removal of floor finish! That's right, using only water. No longer will you be bothered with chemical smells, or slip and fall hazards. Not to mention, the savings in chemicals! Couple that with all the other benefits of using BOOST and it's a win-win for everyone. Save up to 70% in solution, while extending your pad life by 40%, getting longer battery runtimes, and cutting labor time in half!

Get the best gloss level on your gym floor by wet screening with BOOST®.

Trusted. Reliable. Efficient.

A Nilfisk-Advance Brand

Clarke®

Obtain the best gloss level on your gym floor by wet screening.

Wet screening cleans and preps the surface for lasting adhesion of a new coating. BOOST's high speed orbital action and minimal solution usage coupled with fast and immediate solution pickup is the most productive tool in producing the highest quality gym floor surface.

Clarke Sand Screens: BOOST® 20 in x 14 in	PN (Box of 10)
20 in x 14 in - 60 grit	997100
20 in x 14 in - 80 grit	997101
20 in x 14 in - 100 grit	997102
20 in x 14 in - 120 grit	997103

Clarke Sand Screens: BOOST® 28 in x 14 in	PN (Box of 10)
28 in x 14 in - 60 grit	997008
28 in x 14 in - 80 grit	997009
28 in x 14 in - 100 grit	997010
28 in x 14 in - 120 grit	997011

Clarke Sand Screens: BOOST® 32 in x 14 in	PN (Box of 10)
32 in x 14 in - 60 grit	997012
32 in x 14 in - 80 grit	997013
32 in x 14 in - 100 grit	997014
32 in x 14 in - 120 grit	997015

And, when you're not screening your gym floors, reduce scrubbing costs throughout your entire facility!

Benefits of using BOOST® technology:

- 50% - 70% less water consumption
- 50% - 70% less chemical consumption
- 25% increase in battery runtime
- 40% increase in pad life
- Remove floor finish using only water - no chemicals!
- Less downtime because of fewer empty and refill cycles
- Cleaner floors equal more effective burnishing to extend strip and re-coat cycles
- Reduced noise levels to improve operator safety
- Close edge cleaning reduces secondary manual labor

The savings over conventional disc scrubbers pays for itself and your next scrubber, while performing everyday scrubbing.
