

DirectAir

Carpet Dryer

- **Versatile dryer for many uses**
- **Multi positional 0°, 45°, 90°**
- **Powerful 3-speed motor**
- **Convenient cord wrap**
- **Ergonomic handle design**

The DirectAir ventilation and drying system is ideal for drying carpets, hard floors, upholstery or wherever fast dry times are required.

The DirectAir also works well in areas requiring added ventilation or for blowing up advertising balloons or inflatable playgrounds. The blower has three positions (0°, 45°, 90°), allowing you to control the direction of airflow where it's needed most.

The DirectAir is perfect for drying any floor surface, including carpets, tile floors, and more.

Trusted. Reliable. Efficient.

SPECIFICATIONS	DirectAir
Part Number	04130D
Air Flow	300/2000/1300 CFM
Motor	0.5 hp thermally-protected
Fan (H x W)	10.625 in x 10.5 in
Power Cable	35 ft
Switch	4-position
Operating Positions	0°, 45°, 90°
Additional Features	Stackable
Dimensions	18.5 in x 17 in x 16 in
Weight	30 lb
Shipping Weight	35 lb
Warranty	Parts & Labor - 1 Year

Specifications are subject to change without notice.

What is the DirectAir?

- Aerodynamic design moves up to 3,000 cubic feet of air per minute
- Super efficient “squirrel cage” type fan moves air quietly

What makes it easy to use?

- Easy to stack for storage
- Multi positional - 0°, 45°, 90°
- Balanced carrying handle

- Convenient cord wrap
- Molded in cord grip locks the cord in the storage position
- Single control knob for easy operation

What enhances its productivity?

- Moves more air for the faster drying of floors, carpets, walls
- Evacuates air quickly from rooms for improved air quality

- Easy to service
- Inflates advertising balloons and inflatable playgrounds

What are the safety features?

- Quiet operation
- Water resistant power cord
- Screen-enclosed airflow keeps foreign objects out of fan
- Thermally protected motor
