

Attix Wet/Dry Series

The Attix 8, 12 and 19: The industry standard for wet/dry vacuums

www.nilfisk-alto.us

Wap

Total Cleaning Confidence[®]

**Nilfisk
ALTO**

Mobile & Compact - With Light Weight

ATTIX 8 SERIES WET/DRY ON THE MOVE

*A unique, compact and flexible vacuum cleaner. The only vacuum in the market that alerts users when the filter needs cleaning.**

ATTIX 8 - designed to improve mobility

With the new WAP ATTIX 8, Nilfisk-ALTO widens the wet/dry vacuum range. The vacuum is the perfect solution for craftsmen and other professionals in **woodworking, drywall, and automotive** industries. Bring the ATTIX 8 with you to remove all traces of dust and dirt. You will experience a power surplus greater than one would expect from such a small machine.

Silent Operation

The low noise level of 59 dB A is a luxury feature for a comfortable working environment

Cable hook & Accessory Holder

Have everything in one place. It also allows for proper storage after use.

New Container Design

The slim design allows for an easy transport. The container has no rips and no secret corners inside, so emptying is not a problem.

WAP ATTIX 8
HEPA Options

WAP HEPA filter systems meet the following standards:

ANSI	Z9.2-1979	EPS	560-OPTS-86-003
OSHA	1910.1001	MIL	51058 F
EPA	560-OPTS-86-002	DOE Nuclear Standard	NE F 3-43

HEPA standards also applicable to WAP Attix 12

Push&Clean
Filter Cleaning System

PET-fleece* filter cartridge
Washable and long lasting
filter cartridge with high
filtration rate for a clean air.

Push&Clean button*
For cleaning the filter just
cover the fitting or the
tube and press the button.

Push&Clean

Filter Cleaning System

If your work is with “normal” dirt, you may not need a filter cleaning system... But if you are working with fine dust, you are surely familiar with the dreaded task of cleaning clogged filter cartridges to restore normal suction performance.

With Push&Clean, all you have to do to clean the filter is to cover the fitting or the hose and press the button. Powerful air pulses will clean the filter gently, and you are back to work in no time.

The Push&Clean system:

- Keeps suction performance constantly high
- Extends the life of the filter and reduces your costs
- Saves you working time
- Improves the reliability of the machine

Push&Clean filter cleaning technology

The Push&Clean technology allows a fast and simple cleaning of the filter cartridge. When you block the fitting for the air inlet or the hose and push the filter cleaning button, the surrounding air enters into the container, passing through the filter cartridge in the opposite direction. The dirt is blasted off the filter and the suction performance is high again. A comfortable and powerful but gentle way of cleaning the filter.

Audio filter alarm

A high-pitched alarm will notify the user that the filter needs cleaning.

Ergonomic and sturdy grip

The machine can be moved round in an easy and comfortable way even with a full container.

Round switch and auxiliary power outlet

The switch can be easily used, even with gloves. It always indicates whether the machine is on or off. The automatic auxiliary power outlet* allows you to use electric tools.

SoftStart*

A gentle start-up motor keeps starting current low and prevents voltage.

Power Regulator*

To adjust suction performance and to prevent the power tool from sticking to the work surface.

Superior Suction Performance

The power you need for better cleaning with less effort in less time.

Hose selection feature*

Adjustment for various diameter of suction hose for optimum cleaning.

**Standard on Attix AS/E*

Push&Clean

Xtreme Efficiency

ATTIX 12 SERIES XTREME SILENCE

Superior suction power, silent operation and new innovative features.

The Most Silent Worker Around

Even when it does the tough jobs, you won't notice. The ATTIX 12 was developed with many improvements and a new design. Additionally, it gives you the most silent operation of the WAP line. Then add superior suction performance, automatic filter cleaning, and anti-static features, and you have the perfect wet/dry vacuum for the body shop, rental store, and manufacturing industries.

Silent Operation

The low noise level of 59 dB A is a luxury feature for a comfortable working environment

Cable hook & Accessory Holder

Have everything in one place. It also allows for proper storage after use.

Extra large wheels and castors

Good mobility even on different or uneven surfaces.

Application-Specific Models Available

XtremeClean
Automatic Filter Cleaning System

WAP now offers the impressive filter cleaning system called XtremeClean. The name is characteristic for the cleaning level of this system: Extremely efficient and completely automatic, saving you time and money. The best filter cleaning system that the market has ever seen.

All you have to do is start the vacuum. The filter is immediately cleaned automatically, and every 30 seconds while you work. So there is no need to interrupt your work to clean the filter. You concentrate on your task, and XtremeClean will take care of the filter.

Powerful air pulses clean the filter gently and:

- Keep the suction performance constantly high
- Extend the life of the filter and reduce your costs
- Save you working time without interruptions
- Improve the reliability of the machine
- Word-Patented

XtremeClean filter cleaning technology

Advanced technology delivers automatic filter cleaning while you work with full vacuum performance. The XtremeClean technology is based on a valve controlled solution, using reversed air flow to clean the one half of the filter cartridge - while you still work with the other half of the filter cartridge. The valve allows the surrounding air to enter into the container, passing through the filter in the opposite direction. The dirt is blasted off the filter and the suction performance is restored.

Ergonomic and sturdy grip

The machine can be moved round in an easy and comfortable way even with a full container.

Round switch and auxiliary power outlet

The switch can be easily used, even with gloves. It always indicates whether the machine is on or off. The automatic auxiliary power outlet* allows you to use electric tools.

SoftStart*

A gentle start-up motor keeps starting current low and prevents voltage.

Power Regulator*

To adjust suction performance and to prevent the power tool from sticking to the work surface.

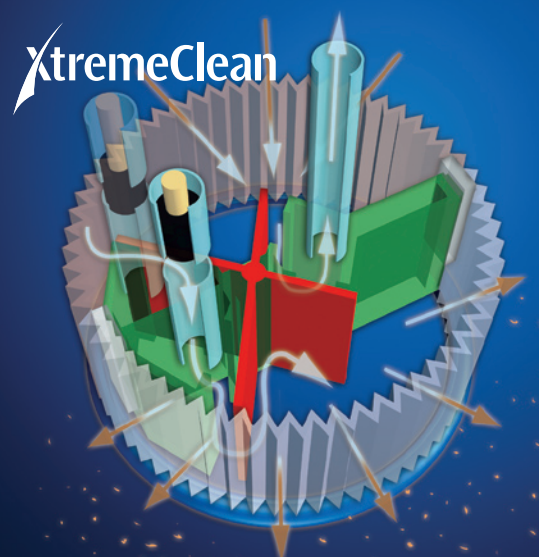

AntiStatic Feature

To prevent shocks and dirt caused by static charges.

Hose selection feature*

Adjustment for various diameter of suction hose for optimum cleaning.

**Standard on different variants*

Nilfisk-ALTO OFFERS MORE DEDICATED SOLUTIONS...

In order to accommodate specific customer needs, Nilfisk-ALTO has developed a full range of accessories and accessory sets. You will find more accessories and more sets in the main Nilfisk-ALTO catalog.

Accessories for ATTIX 8 & 12

Filter bags

2-ply filter bag in sturdy quality and with high filtration rate. PU 5 pcs. The original Nilfisk-ALTO quality.

ATTIX 8
ATTIX 12

302 000 449
302 000 527

Filter Cartridge

Filter cartridge made of washable PET-fleece with high filtration rate and long service life.

ATTIX 8 & 12
ATTIX 12 XtremeClean

302 000 490
302 000 751

Cloth filter insert "special"

Additional filtration stage with high-level filtration efficiency. Best suitable for very fine dust mixed with moisture. For those that work without filter bags. Made of needled felt. Plastic coated.

ATTIX 8 & 12
ATTIX 12

302 000 606
302 000 525

Accessory net

Helps carrying different goods like accessories or small tools. Content is visible. Kit includes screws.

ATTIX 8
ATTIX 12

302 000 607
302 000 524

Exhaust air collector

To collect the exhaust air and lead it out of the room. Ideal for 100% clean rooms. Can also be used to blow some dirt out of hard-to-reach places. Kit includes screws.

ATTIX 8 & ATTIX 12

302 000 522

Handle, folding

Offers an extreme comfortable handling when the machine is transported. Kit includes screws.

ATTIX 8

302 000 523

Accessory net

For transportation of even more accessories, an accessory net is available and can be mounted on the vac.

Handle (Folding)

A comfortable way to transport your vac.

Exhaust air collector

If you want to get rid of the vacuumed air - just use the exhaust air collector. Can also be used to blow some dirt out of hard-to-reach places.

Selection of some accessory sets

Industrial/floor set

No. 63214

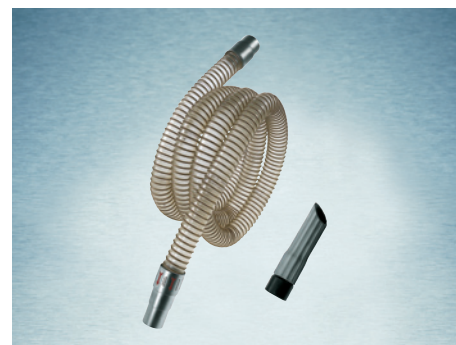

- 4-piece, 1.5-inch diameter connection 13-foot suction hose, oil-resistant 61779
- Curved hand tube, stainless steel 46691
- 2 Suction tubes, stainless steel 15546
- Large-capacity floor nozzle with rubber lips 15349

Industrial set

No. 63216

- 6-piece, 2-inch diameter connection 13-foot suction hose 15358
- Anodised aluminium extension tube 15335
- Industrial floor nozzle, aluminium 15343
- Replacement rubber lips 15346
- Crevice nozzle, special plastic 7102
- Coarse dirt nozzle, aluminium 41100

Chip set

No. 61681

- 2-piece, 2-inch diameter connection 13-foot aluminium suction hose 15182
- Diagonal tube nozzle, rubber 7868

Pipe cleaning set

No. 63215

- 4-piece, 1.5-inch diameter connection 13-foot suction hose 15365
- 8-foot anodised aluminium extension tube 15340
- Tube cleaning nozzles 2.75 - 4.75-inch diameter 7964
- 4.75 - 7.75-inch diameter 8054

Animal Care Set

No. 6095

- 4-piece, 1-inch connection 11-foot suction hose 14289
- Spiked currycomb 6094
- Currycomb 6092
- Oven nozzle "XL" 6093

Oven cleaning set

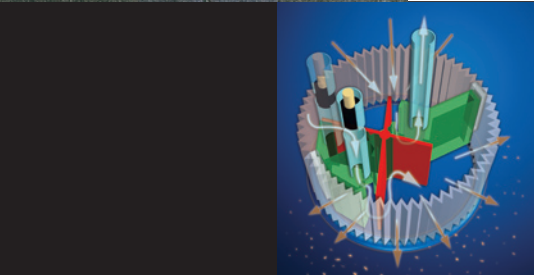

No. 14341

- 3-piece, 38 mm diameter connection 4 m suction hose 6070
- 2.5 m anodized aluminium extension tube 15340
- Oven nozzle "XL" 63380

ATTIX 19 SERIES REVOLUTIONARY

The revolution in wet/dry vacuums

The new Attix 19-gallon wet/dry vacuum features the XtremeClean filter-cleaning system*, the best filter-cleaning system the market has ever seen.

With the XtremeClean system, there's no need to stop working as the filter is continually being cleaned automatically. There are no buttons to press, no canisters to open -- no manual effort at all.

Powerful air pulses gently clean the filter and:

- Reduce down time
- Keep suction performance at its peak
- Improve the reliability of the machine
- Extend the life of the filter
- Save you money

**Available on select models only*

ERGONOMIC DESIGN

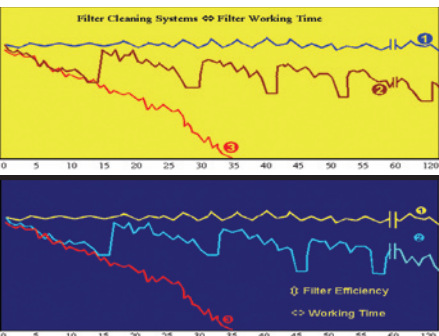

Comfortable handle, tilt or lift-out container, handy tool tray and suction tube holder.

SILENT POWER

Works at a low 57dB A

STURDY

Steel frame and stainless-steel canister

XtremeClean technology lets you keep working longer, even when working with fine dust.

- ☞ XtremeClean filter-cleaning system
- ☞ Semi-automatic filter-cleaning systems
- ☞ Manual filter-cleaning systems

Mobility and Transport

With a comfortable, integrated handle, it's easy to take the Attix 19 wherever the work is.

Versatile and Flexible

Tilt the container to empty, or simply lift it out of the frame to dispense of its contents elsewhere.

HIGH PERFORMANCE

Two-stage turbines and bypass motors

VERSATILITY

Tilting, removable container;
optional features including
XtremeClean and automatic on/off

The Attix 19 Series is
ideal for:

Rental
Body Shops
Industrial
Oil & Lube
Automotive
Construction
Food Processing
Manufacturing
Hospitality
Agriculture
Pharmaceutical

No situation or job is too
tough for the Attix 19
Flood Sucker

● - Standard Accessory/Feature ○ - Optional Accessory/Feature

Attix Wet/Dry Series

The **Attix 8** is unique, compact, and flexible. It offers a low noise level of 59 dB A, an ergonomic and sturdy grip, and a cable hook and accessory holder. It also features superior suction performance, all in a slim package, easy to transport and store.

- Powerful vacuum motor generates 120 CFM and 90" of water lift
- Quiet motor technology generates low noise rating of 57 dB A
- 8 gallon tank capacity
- PET-fleece filter cartridge is washable for long life
- Smooth interior tank design makes dumping easy and clean
- Hose, wand, floor tool, and attachments included

The **Attix 12** offers high suction performance and innovative features, like a power regulator that adjusts suction performance, an AntiStatic feature that prevents shocks, and an adjustable hose selection feature. It also offers silent operation at 57 dB A, a cable hook, tube and accessory holder, and an ergonomic and sturdy grip.

- Powerful vacuum motor generates 140 CFM and 105" of water lift
- Quiet motor technology generates low noise rating of 57 dB A
- 12 gallon tank capacity
- PET-fleece filter cartridge is washable for long life
- Motor brush "switch off" technology protects the motor when brushes are worn
- Hose, wand, floor tool, and attachments included

The **Attix 19** is powerful, but very versatile. It sports a comfortable handle and tube holder and offers power in the form of two-stage turbines, but at a silent level at 57 dB A. Its steel frame and canister make it rugged and dependable. The tilting, removable container makes it extremely user friendly.

- Powerful vacuum motor generates 140 CFM and 105" of water lift
- Quiet motor technology generates low noise rating of 57 dB A
- 19 gallon tank capacity
- Sturdy doll mount construction allows for easy transport
- Durable stainless steel canister
- Tilting canister feature makes it easy to dump contents
