The Complete Sanding Solution

Clarke® American Sanders is proud to present the latest innovation in floor sanding equipment, the EZ-Sand Orbital Sander. Designed with steel, aluminum, and iron components, this machine delivers the rugged durability that you have come to expect.

With its unique appearance, a rotating handle, and its two-piece modular design, it is clear that this machine is no ordinary sander. In fact, it is a multi-purpose machine that can be used to sand both large and small areas on any project.

Its compact design allows it to sand edges, wall lines, and closets, and its powerful three-motor, triple-head design allows it to effectively sand large, open areas. The orbital sanding action makes it a very stable machine that is easy to run for use with or against the grain.

The EZ-Sand features a modular design that allows the handle to quickly separate from the base of the machine. This makes it incredibly easy to transport to and from any home or job-site. The sander is also equipped with a self-contained dust collection system. It may also be connected to a remote vacuum system for optimum dust containment.

Modular design allows the sander to disassemble into two pieces for easy service and transportation

Hook and Loop paper attachment uses 6-7/8 in. paper and makes changing paper quick and easy.

Triple pad design gives full sanding coverage while the triple motor design allows each pad to be driven directly from the motor – no belts to service.

The handle sleeve allows the handle to be locked in the upright position for storage, or released for operation.

Components made from steel, aluminum, and iron for increased durability

Vacuum-ready dust pipe design easily fits a 1.5 in. vacuum hose for use with a dust control vacuum system.

Three-head sanding design will sand the entire floor, including edges and wall lines.

EZ-Sand

Orbital Sander

KEY FEATURES:

- Orbital sanding action
- Modular two-piece design
- Steel, aluminum, and iron components
- Vacuum-ready dust pipe
- Triple-motor/triple-pad design
- Sands open areas and wall lines

SPECIFICATIONS	EZ-Sand
Part Number	07164A
Motors	Three 1/3 HP Motors
Voltage	120V/60 Hz
Amperage	12
Paper Size	6.875 in.
Paper Type	Hook and Loop
Wheels	Grey, Non-marking
Sound Emissions	74 dB(A)
Vibration	16 m/s ²
Dust Collection	Dust Bag w/ Vacuum-Ready Dust Pipe
Power Cable	40 ft., Grey, Non-marking
Dimensions (L x W x H)	19 x 16.25 x 44.75 in.
Weight	102 lbs.
Warranty	One Year (Parts And Labor)
